PROP 1 RECOMMENDATION

Citizens Alliance of Idaho recommends a **NO** vote on proposition 1. Idaho law currently allows abortion as an option if the pregnancy was the result of rape or incest, and has been reported to law enforcement. Idaho law also provides exception in the abortion statute to protect the life of the mother if a doctor determines her life is put in medical danger because of the pregnancy. If passed, the definition of viability changes, parental consent for minors is stripped, and pregnant women's health and life will be at greater risk due to lower licensing regulations and liability protections.

For those reasons and more, we recommend a **NO** vote on Prop 1.

Citizens Alliance of Idaho is pleased to endorse candidate and incumbents who have signed and are in Good Standing with The Pledge. We value the commitment these men and women have expressed to work in upholding and preserving our shared values. To learn more about The Pledge visit <https://IdahoPledge.com>
